Featured Technical Ecosystem

PixelForge Enterprise Suite | Full-Stack Architecture Showcase

Live Showcase: jaimecj.com · Storefront: pixelforgedeveloper.com
Staff ERP: staff.pixelforgedeveloper.com

Designed and deployed a multi-tenant, full-stack ecosystem simulating real-world enterprise operations. This project demonstrates end-to-end mastery of micro-services, security, and DevOps.

The Architecture:

- **Decoupled Frontend:** Built distinct React applications for Consumer (Storefront) and Admin (Staff ERP) experiences.
- **Centralized Backend:** Engineered a robust RESTful API (*api.pixelforgedeveloper.com*) using **NestJS** to handle data validation, auth, and logic.
- **DevOps & Infrastructure:** Orchestrated services via **Docker** and configured **Nginx** on Linux servers for reverse proxying/load balancing.
- **Enterprise Security:** Implemented **RBAC**, SSL/TLS encryption, and API rate limiting to ensure data integrity and uptime.
